To the Exhibition Manager

This is a new layout for 2021, DINOSAUR VALLEY with rising helix at both ends of board.

I wish to be considered for your next model show as an exhibitor.

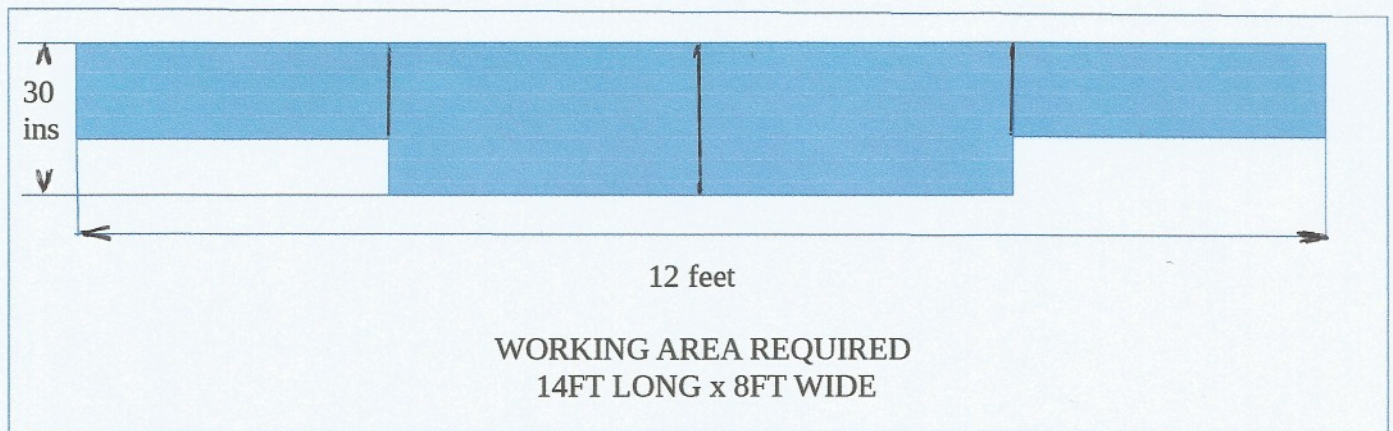

This layout is in "N GAUGE".

Actual layout board size is:- at widest point 30 inches x 12 feet long

This modular layout, is made up of 4 boards, 2 off 3ft long straight boards with helix at each end, and 2 off, 3ft long loop boards, at either end, with shuttle track.

Expenses only asked for, if a 2 day show or travel is over 50 miles.

See diagram of layout and working area required.

Features of the layout:-

There is NO set location, NO set period just enjoy running trains, from Thomas the tank engine, to steam locos and diesel locos, entertaining the public/visitors.

Each board has its own imaginative scene, with dinosaurs and humans living together.

A cable car takes visitors from one side of dinosaur valley to the other.

All the chalet buildings are lit up with different colour lights.

A helicopter pad with an air ambulance on the heli-pad

There is a light show inside the right hand helix featuring dinosaurs in a thunder storm.

Requires one power point.

Needs two operators

There is 1 looped track on the front of the boards, which will have DCC locos running.

Also there is a shuttle line on the front of board running end to end

There can be up to 6 loco's running at any time.
